

# **ASK THE RABBI**

**Question: Do we know an exact date when Moshiach will come?**

**Answer: No in fact our Rabbis tell us not to attempt to calculate the date. Most commentators assume there is no set date, and rather at a time when as a nation we merit, through our perfected actions and Torah observance, to have Moshiach arrive.**

**The reason why Moshiach's arrival is dependent on our actions is because the only advantage to Moshiach's arrival will be the removal of obstacles towards man's perfection. The only logical way that people would merit a path towards easier perfection is if they've shown through their actions that they merit it.**
